**Bachelor of Science in  
Web Design and  
Interactive Media**

The Art Institute of  
California - Orange County

## Tech and Tools

HTML

CSS / SCSS

Tailwind CSS

JavaScript

jQuery

Next.js

React

TypeScript

Adobe Illustrator

Adobe Photoshop

Experienced in software development in an agile setting. Aim to provide timely solutions for front end, JavaScript, and UI for the web; When I'm not hiking with my dogs or playing a video game, I continue learning to further my skills in TypeScript, GraphQL, CI/CD, and AWS.

## Work Experience

### Web Developer

Frost Law Firm | Remote

2019-2022

Solo contract work assigned from a manager.

- Developed 2 front end websites with Next.js, React, Tailwind CSS, styled-components, and TypeScript.
- Developed a back end using Strapi a headless CMS, PostgreSQL, and AWS S3.
- Deployed websites using Git, Vercel, DigitalOcean, and AWS CloudFront.
- Designed and researched a consumer-facing website and internal resource center using Adobe Photoshop, Adobe Illustrator, web accessibility, and Microsoft Authentication Library (MSAL).

### Software Developer

iHerb | Irvine, CA

2015-2019

Large international e-commerce agile company in teams of 4-12.

- Created and maintained over 11 consumer-facing and internal website features used in mobile web, tablet, and desktop.
- Developed pixel perfect pages in 8 different languages by communicating effectively during development with designers and QA testers.
- Tested and deployed features consuming APIs, sometimes working with teams overseas and staying late to accommodate the time differences.
- Debugged and troubleshooted customer service tickets using Chrome DevTools, Visual Studio IDE, querying MySQL database logs. Sometimes taking calls at home and remote logging in to help solve production issues.
- Trained and onboarded junior devs by annotating our teams processes for code environment and deployment, increasing our dev speed.
- Learned various technologies on the job: C#, MySQL, .NET/.NET Core, SCSS, Gulp, Team Foundation Server, Git, Octopus, Harness, Jenkins, Jira.
